Introducing Everest Biotech -

Experts in antigen affinity purified goat polyclonal antibodies

Since 2000, Everest has been producing a catalog containing thousands of goat antibodies against a broad range of human, mouse and rat proteins of biomedical interest. Now you can get Everest Biotech's Antibody Factory working for you. You can buy **Bulk Antibodies** from stock, get **Custom Antibodies** made by us or **Collaborate on New Antibodies**.

Bulk Antibodies

Are you developing an assay and require >1mg antibody?
Everest Biotech, have stock of over 5000 affinity purified
antibodies available in bulk:

- **HIGHEST PURITY** - Antigen affinity purified as standard.
- **GOAT RAISED ANTIBODIES** - Large batches and Lot-Lot consistency.
- **DEFINED EPITOPE** - Generated against (and purified using) short peptides, sequence always on the datasheet.
- **TEST SAMPLES AVAILABLE** - From reserved batches.
- **NEXT DAY DELIVERY** - Stocks held in our European and USA Hubs.
- **CHOICE OF FORMATS** - Including BSA free, Azide free and conjugations.
- **COMPETITIVE PRICE PROMISE** - We aim to beat any quote for comparable antibodies.
- **IMMUNIZING PEPTIDES** - Available on request.

Custom Antibodies

We are specialists in antigen affinity purified polyclonal antibodies and our processes have been optimised during the past decade, producing thousands of antibodies for our own catalogue.

- **LARGE BATCHES** - Using goat as host means large batch sizes - remember that it costs you the same to validate a small batch of antibody as a large one.
- **COMPETITIVE PRICE PROMISE** - The lowest prices in the world for custom antigen affinity purified polyclonal antibodies.
- **DESIGN ADVICE** - From a team with over a decade of experience.
- **PROFESSIONALISM** - ISO9001 certified production laboratory; highly educated and trained staff with leadership at PhD level. Fully qualified veterinary doctor on staff.
- **TRACK RECORD** - >400 scientific publications using antibodies from Everest's Antibody Factory.
- **GUARANTEE** - ELISA or western blot performance guarantees built into every quote.

Collaborate on New Antibodies

We have set aside capacity in our pipeline - could we collaborate? You could get the antibodies you need for your work plus an ongoing revenue stream.

WE ARE LOOKING FOR:

- Ideas for new antibodies with market potential.
- Partners with the ability to validate antibodies (especially if you have access to samples/techniques that others don't have and will generate impressive looking datasheets).
- Partners with immunogens are welcome, otherwise we can design and make peptide immunogens.

WE OFFER IN RETURN: - Design, Production, QC capacity and experience, Worldwide Logistics, Sales channels.

e.g. TEST KIT/ASSAY MANUFACTURER - We share production cost and testing. You get the antibodies you need for your assays, we sell any excess antibody into the research market.

e.g. PROTEIN/PEPTIDE MANUFACTURER - You supply the antigens, we make the antibodies. Your customers likely need antibody as well as antigen.

e.g. SMALL/NICHE ANTIBODY MANUFACTURER - Production costs shared, profits shared. We can manage OEM channels.
