# EB07748 - Goat Anti-ACACB Antibody

Size: 100µg specific antibody in 200µl

# **Target Protein**

Principal Names: ACACB, acetyl-Coenzyme A carboxylase beta, ACCB, HACC275, acetyl-CoA carboxylase 2 Official Symbol: ACACB Accession Number(s): NP\_001084.2 Human GeneID(s): <u>32</u>

### Immunogen

Peptide with sequence C-QLGEPDLSDKDRKD, from the internal region of the protein sequence according to NP\_001084.2.

Please note the peptide is available for sale.

# **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

# **Applications Tested**

Peptide ELISA: antibody detection limit dilution 1:32000.

**Western blot:** Preliminary experiments gave an approx 28kDa band in Human Heart lysates after 0.5µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 277kDa according to NP\_001084.2. The 28kDa band was successfully blocked by incubation with the immunizing peptide.

### **Species Reactivity**

Tested: Expected from sequence similarity: Human
