Research Use Only. Not for diagnostic or therapeutic use.

Storage: For long-term storage keep aliquots at -20°C. (Store no longer than 12 months at 4°C). Minimize freezing and thawing.

EB06725 - Goat Anti-AGRP / Agouti-related protein Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: agouti related protein homolog, MGC118963, Agouti-related transcript, mouse, homolog of, agouti (mouse) related protein, agouti related protein homolog (mouse), ASIP2, AGRT, ART, AGRP

Official Symbol: AGRP

Accession Number(s): NP_001129.1; NP_015531.1

Human GeneID(s): [181](#)

Important Comments: This antibody is expected to recognise both reported isoforms (as represented by NP_001129; NP_015531)

Immunogen

Peptide with sequence CRKLG TAMNPCSRT, from the C Terminus of the protein sequence according to NP_001129.1; NP_015531.1.

Please note the [peptide](#) is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:32000.

Western blot: Preliminary experiments gave bands at approx 45kDa and 24kDa in Human Brain lysates after 0.1µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the bands we observe given the calculated size of 14.4kDa according to NP_001129.1 and NP_015531.1. Both detected bands were successfully blocked by incubation with the immunizing peptide (and BLAST results with the immunizing peptide sequence did not identify any other proteins to explain the additional bands). We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

Species Reactivity

Tested:

Expected from sequence similarity: Human, Dog, Pig
