Research Use Only. Not for diagnostic or therapeutic use.

EB11112 - Goat Anti-Defensin, beta 119 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: beta-defensin 119, beta-defensin 120, beta-defensin 19, beta-defensin 20, DEFB120, DEFB-19, DEFB-20, defensin, beta 119, defensin, beta 120, defensin, beta 19, defensin, beta 20, ESC42-RELA, ESC42-RELB, MGC71893, DEFB119

Official Symbol: DEFB119

Accession Number(s): NP_695021.2; NP_775689.1; NP_697018.1

Human GenelD(s): 245932

Important Comments: This antibody is expected to recognize reported isoform a

(NP_695021.2) only.

Immunogen

Peptide with sequence C-EENTDWSYEKQWPR, from the C Terminus of the protein sequence according to NP_695021.2; NP_775689.1; NP_697018.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:4000.

Western blot: Not yet tested - our routinely used western blotting protocol does not allow detection of proteins smaller than the calculated size of 9.82kDa according to the precursor NP_695021.2. Therefore we cannot recommend an optimal concentration and the antibody is an aspiring product. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

Species Reactivity

Tested:

Expected from sequence similarity: Human
