**Research Use Only. Not for  
diagnostic or therapeutic use.**

Storage: For long-term storage  
keep aliquots at -20°C. (Store no  
longer than 12 months at 4°C).  
Minimize freezing and thawing.

## EB08818 - Goat Anti-SLC10A2 / ASBT Antibody

Size: 100µg specific antibody in 200µl

### Target Protein

**Principal Names:** ileal sodium-dependent bile acid transporter, ileal apical sodium-dependent bile acid transporter, OTTHUMP00000040691, NTC2, ISBT, solute carrier family 10 (sodium/bile acid cotransporter family), member 2, ASBT, SLC10A2

**Official Symbol:** SLC10A2

**Accession Number(s):** NP\_000443.1

**Human GeneID(s):** [6555](#)

### Immunogen

Peptide with sequence C-YKANGGFQPDEK, from the C Terminus of the protein sequence according to NP\_000443.1.

Please note the [peptide](#) is available for sale.

### Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

### Applications Tested

**Peptide ELISA:** antibody detection limit dilution 1:16000.

**Western blot:** Preliminary experiments gave an approx. 60kDa band in Human Kidney lysates after 0.1µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 37.7kDa according to NP\_000443.1. The 60kDa band was successfully blocked by incubation with the immunizing peptide. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

### Species Reactivity

**Tested:**

**Expected from sequence similarity:** Human
