**Research Use Only. Not for diagnostic or therapeutic use.**

Storage: For long-term storage keep aliquots at -20°C. (Store no longer than 12 months at 4°C). Minimize freezing and thawing.

## EB07168 - Goat Anti-SPEN / SHARP Antibody

Size: 100µg specific antibody in 200µl

### Target Protein

**Principal Names:** nuclear receptor transcription cofactor spen homolog, transcriptional regulator, SMART/HDAC1 associated repressor protein, OTTHUMP00000044600, Msx2 interacting nuclear target (MINT) homolog, SHARP, RP1-134O19.1, MINT, KIAA0929, spen homolog, transcriptional regulator (Drosophila), SPEN

**Official Symbol:** SPEN

**Accession Number(s):** NP\_055816.2

**Human GeneID(s):** [23013](#)

### Immunogen

Peptide with sequence C-DSEGKMDKKEDHKE, from the internal region of the protein sequence according to NP\_055816.2.

Please note the [peptide](#) is available for sale.

### Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

### Applications Tested

**Peptide ELISA:** antibody detection limit dilution 1:4000.

**Western blot:** Not yet tested - our routinely used western blotting protocol does not allow detection of proteins as large as the calculated size of approx. 402kDa according to NP\_055816.2. Therefore we cannot recommend an optimal concentration and the product is investigative grade. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

### Species Reactivity

**Tested:**

**Expected from sequence similarity:** Human
