EB08520 - Goat Anti-TXL2 / TXNDC6 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: TXNDC6, TXL2, thioredoxin domain containing 6, MGC129586, TXL-2,

thioredoxin-like 2

Official Symbol: TXNDC6

Accession Number(s): NP_835231.1

Human GenelD(s): 347736

Immunogen

Peptide with sequence C-ESSTQPRLKITDLD, from the C Terminus of the protein sequence according to NP_835231.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:8000.

Western blot: Approx 38kDa band observed in Human Uterus lysates (calculated MW of 29.7kDa according to NP_835231.1). The observed molecular weight corresponds to earlier findings in literature with different antibodies (Sadek et al, J Biol Chem. 2003 Apr 11;278(15):13133-42; 12569107). Recommended concentration: 1-3µg/ml.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human
