| <b>Formulation</b>           | 100µg of Lyophilised peptide, formulation De-ionized (DI) water.                                                                                                                                                                            |
| <b>Unit Size</b>             | 100 µg                                                                                                                                                                                                                                      |
| <b>Storage Instructions</b>  | Shipped at ambient temperature, store at -20°C.                                                                                                                                                                                             |
| <b>Accession ID</b>          | NP_055416.2                                                                                                                                                                                                                                 |
| <b>Immunogen</b>             | Peptide with sequence CRLVPPSKRRHKGSA, from the C Terminus of the protein sequence according to NP_055416.2.                                                                                                                                |
| <b>Product Comments</b>      | The peptide was used in the production of EB06493 - Goat Anti-EHD2 Antibody. It is currently untested in blocking applications.                                                                                                             |
