| <b>Formulation</b>           | 100µg of Lyophilised peptide, formulation De-ionized (DI) water.                                                                                                                                                                  |
| <b>Unit Size</b>             | 100 µg                                                                                                                                                                                                                            |
| <b>Storage Instructions</b>  | Shipped at ambient temperature, store at -20°C.                                                                                                                                                                                   |
| <b>Accession ID</b>          | NP_000593.1                                                                                                                                                                                                                       |
| <b>Immunogen</b>             | Peptide with sequence C-GFKIDDKGMAPALRH., from the internal region of the protein sequence according to NP_000593.1.                                                                                                              |
| <b>Product Comments</b>      | The peptide was used in the production of EB06720-B - Goat Anti-PAI1 / SERPINE1, Biotinylated Antibody. It is currently untested in blocking applications.                                                                        |
