

# GOAT ANTI-ACE2 (N TERMINAL) ANTIBODY

**SKU:** EB13094

## SPECIFICATIONS

**Formulation** Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

**Unit Size** 100 µg

**Storage Instructions** Aliquot and store at -20°C. Minimize freezing and thawing.

**Synonym / Alias Names** Angiotensin I Converting Enzyme (peptidyl dipeptidase A)|Angiotensin converting enzyme like protein antibody|Angiotensin converting enzyme homolog antibody|Angiotensin converting enzyme 2 antibody|ACEH antibody|ACE2\_HUMAN antibody|ACE2 antibody|ACE-related carboxypeptidase antibody|ACE related carboxypeptidase antibody|ACE 2 antibody

**Accession ID** NP\_001358344.1

**Blocking Peptide** EBP13094

**Immunogen** Peptide with sequence PROPRIETARY-C, from the N Terminus of the protein sequence according to NP\_001358344.1.

**Peptide Sequence** PROPRIETARY-C

**Purification Method** Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

**Shipping Instructions** Refrigerated

|                          |                                                                                                                                                                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Predicted Species</b> | Human                                                                                                                                                                                                                             |
| <b>Reactive Species</b>  | Human                                                                                                                                                                                                                             |
| <b>Human Gene ID</b>     | 59272                                                                                                                                                                                                                             |
| <b>Product Grade</b>     | <a href="https://prod-vector-labs-pimcore-assets.s3.us-east-1.amazonaws.com/assets/products/image/elite_medium.png">https://prod-vector-labs-pimcore-assets.s3.us-east-1.amazonaws.com/assets/products/image/elite_medium.png</a> |
| <b>IHC Results</b>       | Paraffin embedded Human Testis. Recommended concentration: 8µg/ml. <p>A customer reported weak staining on paraffin embedded Human Kidney, at a concentration of 5ug/ml.</p>                                                      |
| <b>ELISA</b>             |                                                                                                                                                                                                                                   |
| <b>Detection Limit</b>   | Antibody detection limit dilution 1:32000.                                                                                                                                                                                        |
| <b>Application Type</b>  | Pep-ELISA, IHC                                                                                                                                                                                                                    |
