# EB06798 - Goat Anti-Aminopeptidase A Antibody

Size: 100µg specific antibody in 200µl

### **Target Protein**

Principal Names: aminopeptidase A, ENPEP, glutamyl aminopeptidase (aminopeptidase

A), HGNC:3355, APA, gp160, CD249, glutamyl aminopeptidase

Official Symbol: ENPEP

Accession Number(s): NP\_001968.3

Human GenelD(s): 2028

Non-Human GenelD(s): 13809 (mouse)

### **Immunogen**

Peptide with sequence C-EQYQKTSLAQEKEK, from the internal region of the protein sequence according to NP\_001968.3.

Please note the peptide is available for sale.

### **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

## **Applications Tested**

Peptide ELISA: antibody detection limit dilution 1:64000.

**Western blot:** Approx 170kDa band observed in Human Brain and Testis lysates (calculated MW of 109kDa according to NP\_001968.2). Primary incubation was for 1 hour. The observed molecular weight corresponds to earlier findings in literature with different antibodies (Ando et al, J Clin Endocrinol Metab. 2002 May;87(5):2303-9; PMID: 11994381). Recommended concentration: 1-3µg/ml. This antibody has been successfully used in WB on Rat: PMID: 28399178 and 25470983.

**IHC:** In paraffin embedded Human Kidney shows staining of basement membrane and the mesangium in the glomerulus. Recommended concentration: 3-5µg/ml.

## **Species Reactivity**

Tested: Human, Rat

Expected from sequence similarity: Human, Mouse, Rat, Dog, Pig, Cow

### **Specific References**

### This antibody has been successfully used in WB on Rat:
