EB09928 - Goat Anti-Tetherin / CD317 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: bone marrow stromal cell antigen 2, CD317, tetherin, BST2

Official Symbol: BST2

Accession Number(s): NP_004326.1

Human GeneID(s): 684

Immunogen

Peptide with sequence C-ELTEAQKGFQD, from the internal region of the protein sequence according to NP_004326.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:32000.

Western blot: Approx 30kDa band observed in Human Spleen and Testis lysates (calculated MW of 19.8kDa according to NP_004326.1). The observed molecular weight corresponds to earlier findings in literature with different antibodies (Rollason, J Cell Sci. 2007 Nov 1;120(Pt 21):3850-8.; PMID: 17940069). Recommended concentration: 1-3μg/ml.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human
