EB08921 - Goat Anti-CHKB Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: CHKB, choline kinase beta, CHETK, CHKL, choline kinase-like, choline/ethanolamine kinase

Official Symbol: CHKB

Accession Number(s): NP_005189.2

Human GeneID(s): [1120](#)

Important Comments: This antibody is expected to recognize isoform a (NP_005189.2) only.

Immunogen

Peptide with sequence C-KGETLSQEEQRKLEED, from the internal region of the protein sequence according to NP_005189.2.

Please note the [peptide](#) is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:2000.

Western blot: Preliminary experiments gave an approx 38kDa band in Human Skeletal Muscle lysates after 1µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 45.3kDa according to NP_005189.2. The 38kDa band was successfully blocked by incubation with the immunizing peptide.

Species Reactivity

Tested:

Expected from sequence similarity: Human, Dog
