EB06633 - Goat Anti-Cytochrome b reductase 1 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: CYBRD1, DCYTB, FLJ23462, cytochrome b reductase 1, duodenal cytochrome b, FRRS3, ferric-chelate reductase 3

Official Symbol: CYBRD1

Accession Number(s): NP_079119.3

Human GeneID(s): [79901](#)

Important Comments: This antibody is expected to recognise isoform 1 (NP_079119.3) only.

Immunogen

Peptide with sequence CRNLALDEAGQRSTM, from the C Terminus of the protein sequence according to NP_079119.3.

Please note the [peptide](#) is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:16000.

Western blot: Preliminary experiments gave bands at approx 35kDa and a 26+28kDa doublet in human colon lysate after 0.1µg/ml antibody staining. The detected bands were all successfully blocked by with the immunizing peptide. This antibody was successfully used in WB on Human in PMID: 24894955, 21973163 and 18830567.

IHC: In paraffin embedded Human Testis shows membranous staining in primarily myofibroblasts of the basement membrane surrounding the seminiferous tubules. Recommended concentration: 2-5µg/ml. Paraffin embedded Human Small Intestine. Recommended concentration: 2.5ug/ml.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human, Dog, Pig, Cow
