# EB11112 - Goat Anti-Defensin, beta 119 Antibody

Size: 100µg specific antibody in 200µl

# **Target Protein**

**Principal Names:** beta-defensin 119, beta-defensin 120, beta-defensin 19, beta-defensin 20, DEFB120, DEFB-19, DEFB-20, defensin, beta 119, defensin, beta 120, defensin, beta 19, defensin, beta 20, ESC42-RELA, ESC42-RELB, MGC71893, DEFB119

Official Symbol: DEFB119

Accession Number(s): NP\_695021.2; NP\_775689.1; NP\_697018.1

Human GenelD(s): 245932

Important Comments: This antibody is expected to recognize reported isoform a

(NP\_695021.2) only.

### Immunogen

Peptide with sequence C-EENTDWSYEKQWPR, from the C Terminus of the protein sequence according to NP\_695021.2; NP\_775689.1; NP\_697018.1.

Please note the peptide is available for sale.

### **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

# **Applications Tested**

Peptide ELISA: antibody detection limit dilution 1:4000.

**Western blot:** Not yet tested - our routinely used western blotting protocol does not allow detection of proteins smaller than the calculated size of 9.82kDa according to the precursor NP\_695021.2. Therefore we cannot recommend an optimal concentration and the antibody is an aspiring product. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

## **Species Reactivity**

Tested:

Expected from sequence similarity: Human
