Research Use Only. Not for diagnostic or therapeutic use.

EB09705 - Goat Anti-DTX2 / Deltext-2 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: DTX2, deltex homolog 2 (Drosophila), KIAA1528, MGC71098, RNF58, OTTHUMP0000024490, deltex 2, ring finger protein 58, zinc ion binding protein **Official Symbol:** DTX2

Accession Number(s): NP_065943.2; NP_001096066.1

Human GeneID(s): 113878

Non-Human GenelD(s): 304591 (rat)

Important Comments: This antibody is expected to recognize both reported isoforms (NP_065943.2; NP_001096066.1). Reported variants NP_001096065.1, NP_065943.2, NP_001096064.1 represent identical protein.

Immunogen

Peptide with sequence C-EKLSTASGYSDVTD, from the internal region of the protein sequence according to NP_065943.2; NP_001096066.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:32000.

Western blot: Preliminary experiments gave an approx 85kDa band in lysates of cell lines A549, HepG2 and NIH3T3 after 0.3μ g/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 67.2kDa according to NP_065943.2. The 85kDa band was successfully blocked by incubation with the immunizing peptide.

IHC: Paraffin embedded Human Small Intestine. Recommended concentration: 5µg/ml.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human, Rat, Cow

EB09705 (5µg/ml) staining of paraffin embedded Human Small Intestine. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
