EB06904 - Goat Anti-Histamine Receptor H1 (C Term) Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: HRH1, histamine receptor H1, HGNC:5182, H1-R, hisH1, histamine

receptor, subclass H1, OTTHUMP00000160133, histamine H(1) receptor

Official Symbol: HRH1

Accession Number(s): NP_000852.1; NP_001091681.1; NP_001091682.1;

NP 001091683.1

Human GeneID(s): 3269

Non-Human GenelD(s): 15465 (mouse), 24448 (rat)

Important Comments: Variants (NP_000852.1; NP_001091681.1; NP_001091682.1;

NP_001091683.1) encode the same protein.

Immunogen

Peptide with sequence CNENFKKTFKRILH, from the C Terminus of the protein sequence according to NP_000852.1; NP_001091681.1; NP_001091682.1; NP_001091683.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:32000.

IHC: This product has been successfully used in IHC on Rat (PMID: 30226827).

 $\textbf{Immunofluorescence} : \textbf{This product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF on Rat (PMID: a constant of the product has been successfully used in IF o$

30413645 and 30143981).

Flow Cytometry: Flow cytometric analysis of A431 cells. Recommended concentration:

10ug/ml.

Species Reactivity

Tested: Human, Rat

Expected from sequence similarity: Human, Mouse, Rat, Dog, Cow
