## EB09484 - Goat Anti-ICOS Antibody

Size: 100µg specific antibody in 200µl

### Target Protein

**Principal Names:** ICOS, inducible T-cell co-stimulator, AILIM, CD278, MGC39850, activation-inducible lymphocyte immunomediatory molecule, inducible costimulator

**Official Symbol:** ICOS

**Accession Number(s):** NP\_036224.1

**Human GeneID(s):** [29851](#)

**Non-Human GeneID(s):** 54167 (mouse)

### Immunogen

Peptide with sequence KGGQILCDLTKTKGS, from the internal region of the protein sequence according to NP\_036224.1.

Please note the [peptide](#) is available for sale.

### Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

### Applications Tested

**Peptide ELISA:** antibody detection limit dilution 1:32000.

**Western blot:** Preliminary experiments gave an approx 13kDa band in Human Peripheral Blood Lymphocyte lysates after 0.01µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 22.6kDa according to NP\_036224.1. The 13kDa band was successfully blocked by incubation with the immunizing peptide.

**IHC:** In paraffin embedded Human Lymph Node shows membrane staining just outside the mantle zone of the Germinal Centre. Recommended concentration: 1-2µg/ml. Paraffin embedded Human Tonsil and Thymus. Recommended concentration: 3.75µg/ml.

### Species Reactivity

**Tested:** Human

**Expected from sequence similarity:** Human

EB09484 (2µg/ml) staining of paraffin embedded Human Lymph Node. Microwaved antigen retrieval with citrate buffer pH 6, HRP-staining.

EB09484 Negative Control showing staining of paraffin embedded Human Lymph Node, with no primary antibody.

EB09484 (3.75µg/ml) staining of paraffin embedded Human Tonsil. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.

EB09484 (3.75µg/ml) staining of paraffin embedded Human Thymus. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
