EB06422 - Goat Anti-RASIP1 / RAIN Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: Ras-interacting protein 1, RAIN, FLJ20401, RASIP1, Ras interacting protein 1

Official Symbol: RASIP1

Accession Number(s): NP_060275.2

Human GeneID(s): [54922](#)

Immunogen

Peptide with sequence CANYRHGPPVATSP, from the C Terminus of the protein sequence according to NP_060275.2.

Please note the [peptide](#) is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:8000.

Western blot: Experiments gave bands at approx 95kDa, 75kDa and 45kDa in A549 Lung Carcinoma lysate after 0.3 ug/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the additional bands we observe given the predicted size of 110kDa according to NP_060275. The detected bands were successfully blocked by incubation with the immunizing peptide.

IHC: Paraffin embedded Human Placenta. Recommended concentration: 3.75µg/ml.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human

EB06422 (3.75µg/ml) staining of paraffin embedded Human Placenta. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
