## EB06541 - Goat Anti-RIF1 (aa 1551-1563) Antibody

Size: 100µg specific antibody in 200µl

### Target Protein

**Principal Names:** Rif1, telomere-associated protein RIF1 homolog, Rap1 interacting factor 1

**Official Symbol:** RIF1

**Accession Number(s):** NP\_060621

**Human GeneID(s):** [55183](#)

**Important Comments:** This antibody is expected to recognise an epitope corresponding to aa 1551-1563 of human RIF1 protein.

### Immunogen

Peptide with sequence CNSSEDSSEAKEEG, from the internal region of the protein sequence according to NP\_060621.

Please note the [peptide](#) is available for sale.

### Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

### Applications Tested

**Peptide ELISA:** antibody detection limit dilution 1:4000.

**Western blot:** Western Blot: Not yet tested - our routinely used western blotting protocol does not allow detection of proteins as large as the calculated size of 274kDa according to NP\_060621.3. Therefore we cannot recommend an optimal concentration and the product is investigative grade. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

### Species Reactivity

**Tested:**

**Expected from sequence similarity:** Human, Chimpanzee, Mouse, Rat
