# EB06542 - Goat Anti-RIF1 (aa 2076-2089) Antibody 🌠

Size: 100µg specific antibody in 200µl

## **Target Protein**

**Principal Names:** Rif1, telomere-associated protein RIF1 homolog, Rap1 interacting factor 1

Official Symbol: RIF1 Accession Number(s): NP\_060621.3

Human GenelD(s): 55183

**Important Comments:** This antibody is expected to recognise an epitope corresponding to aa 2076-2089 of human RIF1 protein.

#### Immunogen

Peptide with sequence CEEGIIDANKTETNT, from the internal region of the protein sequence according to NP\_060621.3.

Please note the peptide is available for sale.

# **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

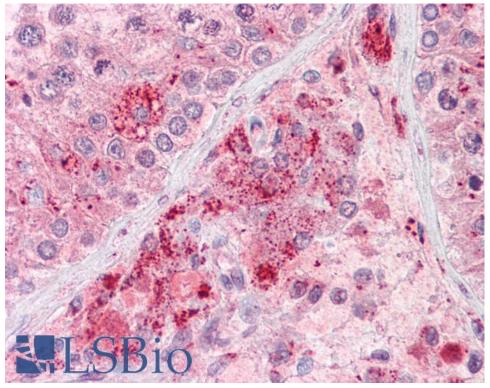

# **Applications Tested**

Peptide ELISA: antibody detection limit dilution 1:16000.

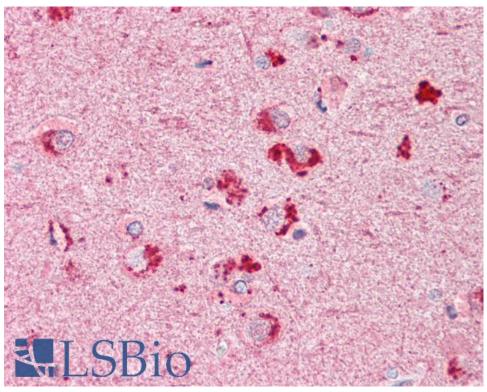

**Western blot:** Not yet tested - our routinely used western blotting protocol does not allow detection of proteins as large as the predicted size of approx. 247kDa according to NP\_060621. Therefore we cannot recommend an optimal concentration. **IHC:** Paraffin embedded Human Testis and Brain (Cortex). Recommended concentration: 1-2μg/ml.

## **Species Reactivity**

Tested: Human Expected from sequence similarity: Human

EB06542 (3.75 $\mu$ g/ml) staining of paraffin embedded Human Testis. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.

EB06542 (3.75µg/ml) staining of paraffin embedded Human Cortex. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
