EB07168 - Goat Anti-SPEN / SHARP Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: SPEN, spen homolog, transcriptional regulator (Drosophila), KIAA0929, MINT, RP1-134O19.1, SHARP, Msx2 interacting nuclear target (MINT) homolog, OTTHUMP00000044600, SMART/HDAC1 associated repressor protein, nuclear receptor transcription cofactor spen homolog, transcriptional regulator

Official Symbol: SPEN

Accession Number(s): NP_055816.2

Human GeneID(s): 23013

Immunogen

Peptide with sequence C-DSEGKMDDKKEDHKE, from the internal region of the protein sequence according to NP_055816.2.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:4000.

Western blot: Not yet tested - our routinely used western blotting protocol does not allow detection of proteins as large as the calculated size of approx. 402kDa according to NP_055816.2. Therefore we cannot recommend an optimal concentration and the product is investigative grade. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

Species Reactivity

Tested:

Expected from sequence similarity: Human
