EB10559 - Goat Anti-TIAM2 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: TIAM2, T-cell lymphoma invasion and metastasis 2, FLJ41865, STEF, TIAM-2, OTTHUMP00000017472, SIF and TIAM1-like exchange factor, T-lymphoma

invasion and metastasis-inducing protein 2

Official Symbol: TIAM2

Accession Number(s): NP_036586.2; NP_001010927.1

Human GeneID(s): 26230

Non-Human GenelD(s): 24001 (mouse)

Important Comments: This antibody is expected to recognize all reported isoforms

(NP_036586.2; NP_001010927.1).

Immunogen

Peptide with sequence C-QIRHQSLDSQSEN, from the internal region of the protein sequence according to NP_036586.2; NP_001010927.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:32000.

Western blot: Preliminary experiments gave an approx 70kDa band in NIH3T3 lysates after 1µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 192kDa according to Mouse NP_036008.2. The 70kDa band was successfully blocked by incubation with the immunizing peptide.

Species Reactivity

Tested:

Expected from sequence similarity: Human, Mouse, Dog
