EB11097 - Goat Anti-UNC5B (aa629-643) Antibody 🏏

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: netrin receptor UNC5B, p53RDL1, p53-regulated receptor for death and life protein 1, protein unc-5 homolog 2, protein unc-5 homolog B, transmembrane receptor Unc5H2, unc-5 homolog 2, unc-5 homolog B (C. elegans), UNC5H2, UNC5B **Official Symbol:** UNC5B **Accession Number(s):** NP_734465.2

Human GenelD(s): 219699

Non-Human GeneID(s): 107449 (mouse), 60630 (rat)

Immunogen

Peptide with sequence C-SARDWIFQLKTQAHQ, from the internal region of the protein sequence according to NP_734465.2.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

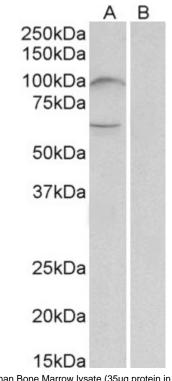

Peptide ELISA: antibody detection limit dilution 1:64000.

Western blot: Approx 90kDa band observed in Human Bone Marrow lysates (calculated MW of 104kDa according to NP_734465.2). Some minor background is detected and is blocked by the immunizing peptide. We call for caution when used for other assays than Western blot. Recommended concentration: $1-3\mu g/ml$.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human, Mouse, Rat, Dog, Pig, Cow

EB11097 (2µg/ml) staining of Human Bone Marrow lysate (35µg protein in RIPA buffer) with (B) and without (A) blocking with the immunizing peptide. Primary incubation was 1 hour. Detected by chemiluminescence.
